RespectUs Awarded "Label Made In Luxembourg" for SaaS Platform for Export Control Compliance

Leudelange, 23rd April 2024: RespectUs, a leading provider of software-as-a-service (SaaS) solutions, is thrilled to announce that it has been honored with the prestigious "Label Made In Luxembourg". This esteemed recognition underscores RespectUs's steadfast presence and dedication to excellence in the Grand Duchy of Luxembourg, particularly in the field of export control compliance.

To be awarded the label, a company must justify the production of goods or the anchoring of its services in Luxembourg and have been in existence for at least twelve months. RespectUs met these criteria with its commitment to delivering top-notch solutions that address critical industry challenges while adhering to the highest standards of quality and compliance.

RespectUs has been labeled for its innovative SaaS platform tailored for exporters of sensitive, export-controlled goods, their suppliers, and banks seeking guidance in product classification, risk assessment, sanctions, and embargoes. This cutting-edge platform exemplifies RespectUs's commitment to delivering top-notch solutions that empower businesses to navigate complex regulatory landscapes with confidence.

"The 'Made in Luxembourg' label is a testament to our commitment to innovation and quality, as well as our contribution to the economic growth of Luxembourg," said Patrick Goergen, Founder & CEO at RespectUs. "We are honored to receive this recognition, which underscores the importance of our mission to provide exceptional solutions that empower businesses to thrive in the global market."

The objective of the Luxembourg label of origin is to promote the products and services of companies established in Luxembourg that want to stand out abroad as part of an internationalization strategy. RespectUs is proud to be recognized as a leading provider of export control compliance solutions and looks forward to further expanding its presence on the international stage.
