

# Industry Space Days – Virtual Event

The European Space Agency (ESA) invites members of the space community to attend its virtual Industry Space Days (ISD) event on 7 – 8 December 2021. Register [here](#) to join this year's edition.

The ISD is organised by the ESA SME Office to foster cooperation between different actors in the entire space sector. The 2021 edition will have a special focus on "Commercialisation". Key elements of this year's ISD include:

- keynotes and panel discussions with contributions by ESA, industry, industry associations and institutional partners
- ESA presentations and workshops about business opportunities and future activities
- a virtual exhibition with ESA and industry booths and the possibility to engage with future partners
- networking opportunities for the space community, including 1-on-1 meetings, industry speed-dating sessions and pitch presentations

Attend the ISD2021 and join Europe's space community online

The event is open to entities from ESA Member States, Cooperating States and Associate States.

Participation is free of charge.

The ISD will be hosted on the platform *Let's Get Digital* (Chrome browser on a computer/laptop required).
